

Easy French Lacer Quick Braid Instructions

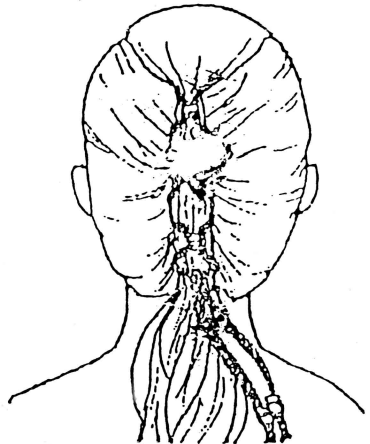

Step 1: Gather a small portion of hair at the top of your head. Pull it through the first loop and push up the bead. You may want to use a ponytail band if your hair is very fine to secure it better.

Step 2: Gather a second portion of hair, add it to the first section and put both through the next loop. Twist the lacer one time behind this section of hair.

Step 3: Bring your hair back through the lacer so that the next bead is on top. Push bead up to tighten and secure hair.

Step 4: Repeat steps 2 and 3 until all beads are used and you have this wonderfully easy french braid hairstyle!

Other hairstyles: Wrap a hair lacer around a ponytail for a quick and easy style. Or use two hair lacers and create a fancy double easy French braid in minutes!
